

PROMPT PACK

# 3 Prompts for Research

Learn anything 10x faster

## Topic Deep Dive

01

### USECASE

## Master any subject quickly

I want to learn [TOPIC]. Create a learning roadmap:

1. 5 core concepts to understand first
2. Common misconceptions to avoid
3. Best resources (books, courses, people to follow)
4. Practice exercises for each concept

My background: [YOUR LEVEL]

## Feynman Technique

02

### USECASE

### Test your understanding

Explain [CONCEPT] in 3 levels:

1. Like I'm 5 years old
2. Like I'm a college student
3. Like I'm an expert in a different field

After each level, note what gaps in my explanation reveal.

## Source Analyzer

03

### USECASE

## Evaluate research quality

Analyze this research/article:

[PASTE CONTENT]

Tell me:

- Main claims and evidence quality
- Potential biases or conflicts
- What's missing from the argument
- Counter-arguments to consider

# Research Tips

Cross-reference 3+ sources  
minimum

Ask AI for opposing  
viewpoints

Summarize in your own  
words

Save for studying
